Education

B.Tech in Computer Science Engineering , S.E.C Sasaram	2020 – 2024
• GPA: 7.81/10.0	
• Coursework: Operating System, Data Structures Algorithm, Computer Networks, DBMS	
Intermediate , S.S Collage Mehus	2019 – 2020
• Percentage: 77.6	
Matriculation , High School Mehus	2017
• Percentage: 75.6	

Experience

Web Development Intern , Aagaz Training Center,Patna,Bihar	Feb 2023 - Apr 2023
• Web Development Skills: As a Web Development Intern at Aagaz Training Center, I honed my expertise in web technologies, creating user-friendly and visually engaging web interfaces using HTML, CSS, and JavaScript.	
• Real-World Experience: Gained valuable insights into full-stack web development through hands-on projects, strengthening practical skills and deepening my understanding of the development process.	
• Contributed to the design and development of dynamic websites, working closely with team members to translate design mockups into responsive and functional web pages.	
• Database Management: Enhanced skills in managing MySQL databases, ensuring efficient data storage and retrieval for web applications.	

Projects

HomeService Provider Application (College Group Project)
• Developed a web-based application connecting customers with service providers for home services like plumbing and electrical work.
• Tools Used: PHP, MySQL, JavaScript, jQuery, HTML, CSS, Bootstrap
• Key Features: Online service booking, QR code payment integration, real-time order management and Google Maps integration
Calculator
• This project allowed me to dive deeper into front-end development and explore the functionality of building a simple yet powerful web tool. The calculator features basic operations like addition, subtraction, multiplication, and division—perfect for everyday use!
• Tools Used: HTML, CSS, JAVASCRIPT, REACT

Technical Skills

Languages: Basics c/c++ , DSA
Tools: HTML, CSS, JAVASCRIPT, REACT
Others: Basics OS, CD, SQL, git
